

RLSERVICES S.r.l.

Industrial Consulting & Technical Services

AIR SERVICE

Operating with professional UAV (Unmanned Aerial Vehicle) will result in a more efficient, cost-effective and safe inspection process that gives better, closer monitoring and control, while you continue your business operations as usual ..

Areal Inspection with professional quadcopter (Drone/UAV) VL/MC class equipped with 4K camera, will allow you to safely and easily capture a high-resolution aerial view and video of a site in minutes and to perform mapping and thermography.

Back in the office, or out in the field, it's easy to analyse high-fidelity reconstructions of sites, make measurements and share comments to help you make better and faster decisions.

RLSERVICES S.r.l.

Industrial Consulting & Technical Services
